## EMPLOYMENT REPORT

Arizona Department of Commerce, Research Administration

July 17, 2008

## Nonfarm Employment Drops by 49,200 in June; Jobless Rate Increases to 4.8%

Arizona's seasonally adjusted unemployment rate was 4.8 percent in June, up from 4.4 percent in May. The seasonally adjusted unemployment rate for June 2007 was 3.6 percent. Nationally, the seasonally adjusted unemployment rate was unchanged at 5.5 percent.

Nonfarm jobs in Arizona declined by 49,200 in June. This greater-than-seasonal decline was due to continued cyclical losses in the goods-producing sectors and mostly seasonal losses occurring in the service-providing clusters.

Service-providing industries (-48,700 jobs) reduced employment by more than expected for the month of June (-2.1 percent), while the goods-producing industries posted losses for the 10th consecutive month (-0.1 percent in June). Job losses occurred in both public and private sectors.

Construction pared 700 jobs in June. This industry has shown job losses for 10 consecutive months. Heavy construction (+100) was the one subsector that added jobs. Construction employment was down over-the-year by 14.3 percent in June.

Manufacturing jobs increased in June by 300 and, excluding nondurable goods (which remained flat) showed

positive growth results among reported sectors. Fabricated metal, computer and electronic parts, and aerospace products and parts each showed a gain of 100 jobs.

Natural resources and mining lost 100 jobs. Metal ore mining lost 200 jobs in the month, yet still is up by 15.7 percent over-the-year (+1,300).

Government jobs were reduced by 41,000 in June, largely due to a decrease in local government education (-33,500). State jobs were trimmed by 9,100 jobs, mostly in education (-8,900). The federal government added 100 jobs.

Trade, transportation and utilities declined by 2,100 jobs. Over-the-month losses continued for the third consecutive month. For June, a modest over-the-month gain of 0.4 percent would be normal. There was loss of 1,100 jobs in wholesale trade, and retail trade reduced jobs by 800. Utilities remained flat.

Leisure and hospitality pared 4,200 jobs in June. As expected, this industry continued to show seasonally related losses. All reported sectors showed losses including arts, entertainment and recreation (-500), and accommodation and food services (-3,700).

## Arizona, U.S. Economic Indicators

### Unemployment Rate (Seasonally Adj.)

	Jun. '08	May '08	Jun. '07
United States	5.5%	5.5%	4.6%
Arizona	4.8%	4.4%	3.6%
Phoenix-Metro	4.3%	3.8%	3.1%
Tucson-Metro	4.7%	4.3%	3.4%
Flagstaff-Metro	4.5%	4.0%	3.5%
Lake Havasu City-Kingman-Metro	6.4%	5.4%	4.3%

### Arizona Nonfarm Payroll Employment

#### (in Thousands)

	Jun. '08	May '08	Jun. '07
Overall	2,614.1	2,663.3	2,647.1
Over-Month % Chg.	-1.8%	-0.3%	-1.2%
Year-to-Year % Chg.	-1.2%	-0.6%	1.2%

The financial activities sector increased by 200. The finance and insurance subsector was up by 200 jobs. The real estate and rental and leasing subsector was flat in June.

Professional and business services

*continued on page 2*

added 200 jobs in June. The loss of 1,400 jobs in employment services held this industry back from a normally expected gain in June.

Educational and health services employment fell by 2,400 last month. With a loss of 2,500 jobs, private educational services had the majority of the reported losses. Health care and social assistance posted a small gain of 100 jobs.

Information lost 500 jobs. This represents the third consecutive month of losses for this industry.

Other services added 1,100 jobs.

Arizona's unemployment rate (4.8 percent) continued to stay below the national average (5.5 percent) in June. Overall, Arizona's economy experienced a greater-than-seasonally expected loss of jobs. Aside from the typical seasonal losses that are common this time of year (e.g., education), figures for June include greater-than-normal losses in construction and retail trade.

Nonfarm employment declined 1.8 percent, or 49,200 jobs, in June.

Manufacturing showed some strength against recent losses by adding 300 jobs in June. The economy continues to show signs of slowing, yet not all industries are equally affected. Consumers continue to be challenged for several major reasons – concerns over a slumping housing market, rising fuel and energy prices and general inflation.

---

### About This Publication

*Arizona Workforce* is published 14 times a year by the Arizona Dept. of Commerce, Research Administration (RA) — 12 as the monthly Employment Report and twice a year as RA's two-year Forecast Report.

Copies of the reports are available at RA's Web site, [www.workforce.az.gov](http://www.workforce.az.gov), or by requesting a printed copy by calling 602-771-1100; writing to 1700 W. Washington, B32, Phoenix, AZ 85007; or sending an e-mail to: [webmaster@workforce.az.gov](mailto:webmaster@workforce.az.gov)

Material published in *Arizona Workforce* is in the public domain and can be reproduced without further permission. Appropriate citations are requested.

## ***Revisions Needed After More Information Becomes Available***

*Why are the industry employment estimates revised each month?*

The Current Employment Statistics (CES) estimates of employment by industry are produced in two different ways. Estimates for most of the large industries are based on a survey sample, popularly known as the establishment survey.<sup>1</sup>

Survey data is collected on an ongoing basis by various means, including mail, telephone, Internet, and special arrangement. Payroll employment figures for most of the large statewide industries are based on this survey.

For industries which do not have adequate sample,<sup>2</sup> survey data is supplemented with other information, including estimates for the same industry from other geographic areas and trends based on historical data. The amount of weight given to historical data often depends on the size of the sample and the quality of the sample data.

In some of the smaller Arizona MSAs (e.g, Prescott, Yuma), most of the employment estimates come from models in which historical data is heavily weighted. Finally, estimates are often adjusted to account for known economic events (opening of a new store, strike) which did not appear in the sample. Because sample collection is a con-

## **Arizona Workforce Q&A**

*Each month, Arizona Department of Commerce, Research Administration provides a brief description of terminology and topics discussed in the monthly Arizona Workforce Employment Report.*

*For more information on these subjects, check the "Glossary" section of Arizona Workforce Informer ([www.workforce.az.gov](http://www.workforce.az.gov)).*

*For more information on this month's topic, click on this link to BLS' Web site: <http://www.bls.gov/sae/790faq2.htm#q12>.*

tinuing process, data quality usually improves by the second month as more establishments report their employment numbers. Consequently, accuracy of sample-based estimates improves.

For estimates based on models, the contribution of the sample to the model is improved, and may also be given greater weight. Additionally, more information is sometimes available regarding non-sample events. So, in general, revised CES estimates will be better than the preliminary estimates.

*Why are the unemployment estimates revised each month?*

Arizona statewide and sub-state unemployment numbers are produced, in cooperation with the U.S. Bureau of Labor Statistics, by ADOC Research Administration's Local Area

Unemployment Statistics LAUS) program.<sup>1</sup>

Unemployment statistics are developed using a number of different sources, including the Current Population Statistics (CPS) survey (also known as the household survey),<sup>3</sup> counts of unemployment claims, and the nonfarm wage and salary employment estimates from the CES program.

The second time that estimates are made for a particular month, the unemployment insurance claim counts and CES employment estimates have both been updated. The largest changes usually occur in the CES numbers.

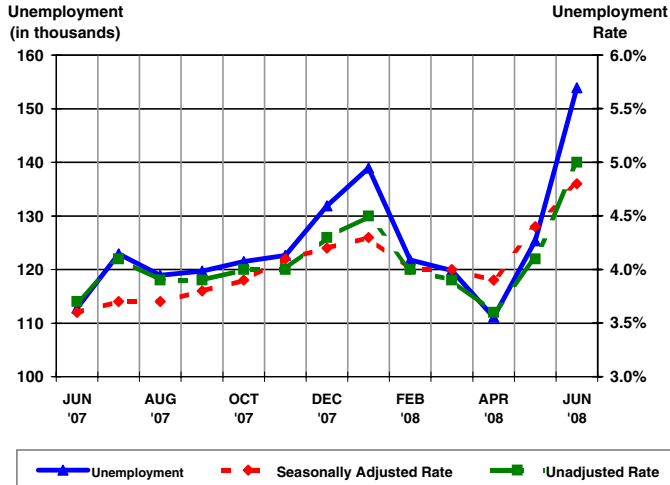

As a rule, monthly revisions in the LAUS program are not as large as those in the CES program.

Publication of revised monthly LAUS estimates were suspended during 2006 and 2007 as a cost-saving measure and were resumed in early 2008.

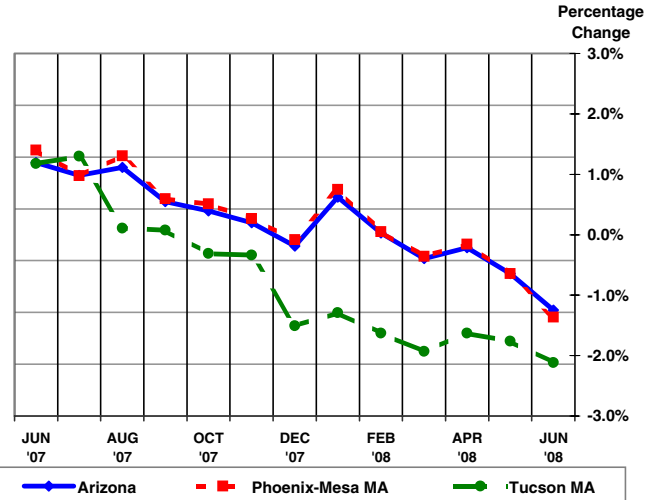

1. See *Arizona Workforce Employment Report*, April 17, 2008, for a discussion about the establishment survey and LAUS program.
2. For series published jointly by Arizona and BLS, adequacy is determined from criteria based on several considerations: the number of establishments in the sample, the size of those establishments relative to the entire industry, and the survey response rates for the sampled firms. Sample adequacy criteria are revised annually.
3. See *Arizona Workforce Employment Report* issues from May 15, 2008, and June 19, 2008, for further discussions about the CPS program.

### **— Equal Opportunity Employer/Program —**

Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI & VII), and the Americans with Disabilities Act of 1990 (ADA), Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, the Department prohibits discrimination in admissions, programs, services, activities, or employment based on race, color, religion, sex, national origin, age, and disability. The Department must make a reasonable accommodation to allow a person with a disability to take part in a program, service or activity. For example, this means if necessary, the Department must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that the Department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. To request this document in alternative format or for further information about this policy, contact the Department of Economic Security, Division of Developmental Disabilities ADA Coordinator at 602 542-6825; TTY/TDD Services: 7-1-1.
